COMMISSIONERSPAUL STOCKERT,
ADMINISTRATOR

Dear Mr. Spies:

As requested by Mr. Ivan Baker of the Ohio Department of Health, I am sending you, under separate cover, four (4) copies of the plans for an "air curtain destructor", both permanent and portable models. It is hoped that one or more of these devices will be installed in Montgomery County for the principal purpose of disposing of tree limbs, tree trimmings, pallets, and other clean wood waste. We recognize, under the Ohio Revised Code, that such installations as solid waste disposal facilities must be reviewed by your department and if approved, the appropriate fee submitted. Therefore, specific location plans, dimensions and other pertinent information will be filed at that time. In the interim, we would appreciate your opinion of this device as a disposal unit for those materials mentioned above, as well as any other suggestions you may have for disposing of such refuse.

If you have any questions on this matter, please do not hesitate to call me.

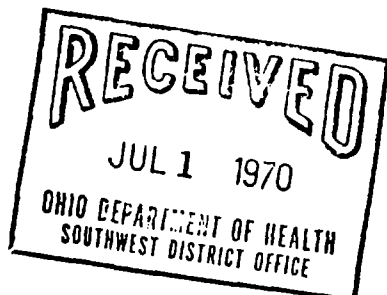

Sincerely yours,

WILLIAM M. AUBERLE,
Supervisor
Air Pollution Control Section

MONTGOMERY COUNTY, OHIO
